How to manage my student loan debt:

- Only borrow what is needed
- Know how much my payments will be **BEFORE** borrowing
(slgfa.org/calculators/loan_repayment_calculator.aspx)
- Know who services my loans and the total amount I've borrowed at all times
(check nslds.ed.gov often for this info)
- Request a different repayment plan if needed
- Set up auto-payments for my student loans
- If I am experiencing financial difficulties, I should contact my loan holder immediately for possible options
- Keep in mind that defaulting on a student loan has serious consequences
- Follow SLGFA on Facebook at facebook.com/slgfa for more debt management information
